## BARUT HEMERA ENERGY MANAGEMENT POLICY

At Barut Hemera, we are committed to fulfilling both our legal responsibilities and our duty to nature by using energy resources efficiently, minimizing energy and natural resource consumption, and continuously improving our practices for a sustainable future. In this regard, we aim to:

- Fully comply with national and international regulations and meticulously fulfill our environmental responsibilities,
- Operate in accordance with the ISO 50001:2018 Energy Management System to ensure the continuity and effectiveness of our system by addressing the needs and expectations of all relevant parties,
- Prioritize energy efficiency in the procurement of new equipment, products, and services to protect the environment and natural resources while optimizing energy consumption,
- Evaluate risks and opportunities within the energy management process to keep pace with evolving technologies and continually improve our system,
- Organize training programs to raise awareness among our employees and stakeholders on the efficient use of natural resources and energy efficiency,
- Integrate energy-efficient technologies into all our processes starting from the design phase to develop sustainable solutions,
- Increase the use of renewable energy sources and support incentives related to renewable energy,
- Stay committed to sustainable and efficient purchasing principles by increasing environmental awareness in line with the needs of our guests and hotel visitors,
- Take an active role in combating climate change by reducing our carbon footprint and developing eco-friendly solutions.

As Barut Hemera, we commit to adhering to all these principles and continuously improving our practices to build a more sustainable and environmentally conscious future.<sup>1</sup>

<sup>1</sup> Amendments were made to all policy items. A new article on Combating Climate Change was added (04.12.2024).
